

## CMP Series Melt-Blown Filter Cartridges

- Effectively captures particles and ensures consistent performance through a multi-layer structure
- Depth structure ensures high dirt holding capacity and long service life
- Melt-blowing polymer technology with firmed fibers leads to precision filtration result
- Outstanding efficiency captures the larger CMP slurry particles accurately

Material	Polypropylene
Length	10, 20, 30 inch
Micron Rating	1, 3, 5, 7, 9, 11, 13 μm
End Cap	2-222 Flat
Operating Data	ΔP : 4.8 bar at 25°C
Applications	CMP Process
