

Sintered Powder Metal Filter Cartridges

- Metallic elements are analyzed using XRF
- Assessed by bubble point test

Material	SUS304, SUS316, SUS316L, Titanium, Nickel, Copper and Others
Length	5, 10, 20, 30, 40 inch and Customization
Micron Rating	0.35 ~ 200 μm
Media Type	Sintered Powder Metal
End Caps	DOE, 2-222, 2-226 and others
Max. Operating Temperature	350°C
Max. Operating Pressure	5 ~ 250 bar (according to the spec.)
Applications	PF, CPL, Petrochemical Processing, Acid/Alkali, High Density Treatment, Steam Filtration, Beverage Industry
